

SG-IP20 SMOKE GENERATOR

The SG-IP20 is the newest waterproof smoke machine, incorporating an innovative new design that earns it an IP-63 rating. Whether indoor or outside, the new SG-IP20 delivers massive fog output with its state-of-the-art design and 1500 watts of power. Included in that design is an extremely precise temperature control system, highly efficient heat conservation system, and an acutely sensitive liquid detection system that senses when fog output or liquid supply is running low. When using the SG-IP20 outdoors, even when raining, it is capable of detecting the ambient temperature and adjusting its operating parameters accordingly. Of course, both DMX and wireless remote options also come standard with this professional machine. The new IP-1500 was designed with efficiency in mind and achieves 13% less electricity consumption than other foggers in its size class, making it the greenest choice.

Specifications

Motor:	100 ~ 240V AC 50/60 Hz
Heater:	1500W
Output:	20,000 cu.ft / min
Dry Weight	29.8 lbs.
Remote:	W-1 Wireless Built In
Dimensions:	14.0" x 9.8" x 5.8"

Fluid Options

Fire Rescue – High Density, Longest Lasting

Fire Rescue SM – Highest Density, Long Lasting

Features

- Water Resistant Rating: IP-63
- Fluid Consumption: 45 Minutes per Gallon
- First Warm-up Time: 10 Minutes
- 2.5 Gallon Fluid Tank Capacity
- External Fluid Source – Pull from any source from a 1 Gallon Bottle to a 55 Gallon Drum
- Wireless, Compact, Powerful and Durable

Fluid Size Options

1 Gallon, 2.5 Gallon, 4 Gallon Case, 55 Gallon Drum

1 Gallon, 2.5 Gallon, 4 Gallon Case, 55 Gallon Drum
