

EagleLight 5 watt LED Light Bulb - 44 LEDs (replaces up to 50 watt)

Replaces up to a 50W incandescent. Uses 44s LED and is up to 85% more energy efficient than an incandescent bulb. This E26 LED bulb can be used in any medium screw-in socket. The warm white lamp is slightly less yellow than a traditional incandescent light bulb and is ideal for creating a warm atmosphere. The natural white creates a fresh, bright, clean light best for kitchen LED lighting and other task lighting. This light works wonderfully well for ceiling lighting applications and down facing floor and table lamps.
