

LED ULTRA Color Changing Mood Strip Light

LED mood ribbon flex strip is a, slim, high brightness, multi color changing light strip ideal for all interior and exterior applications. This light is housed in a thick transparent silicon casing that does not block light from emitting. Small size and cool light output make the mood strip ideal for a wide range of applications such as cove lighting, back lighting, illumination lighting, guidance lighting, channel letter lighting and other narrow area lighting.

Controller: LED Color Changing Mood Strip controller can reach up to 10 meters with a maximum single channel output of 30W. The controller operates on infrared wireless technology. The remote altogether has 25 keys: opening key, increasing light key, and reducing light key, 16pcs fixed mode keys and 4pcs consecutive change pattern keys. Increasing light and reducing light only has an effect under fixed modes.

- **Bulb Shape:** RGB Strip Light
- **Base Type:** 8 pin easy controller plug-in
- **Comparable to:** Cove lighting, accent lighting...etc
- **Color Range:** Multi Color (Red, Blue, Green, Purple)
- **Light Source:** S5050 power LED
- **Housing:** Silicon
- **Operating Temperature:** -20C to 60C (-4F to 140F)
- **Starting Temperature:** -10C to 50C (14F to 122F)
- **Universal Power Voltages:** Operates 100-240V, 24V
- **Superior Brightness Performance**
- **Beam Angle:** 120 Degree
- **LED Source Life:** 30,000
- **Dimensions:** 5 Meter Strip
