

## Instructions for hidden Calculator DVR

### Welcome

Thank you for purchasing the new top of the line calculator DVR. The following product manual will help you to operate your new device. Please be sure to fully read the directions before proceeding to use your new calculator DVR.

### Operation

- 1.) Before using this product please ensure that all accessories were included in the packaging.
- 2.) To turn the device on, simply press the **ON** button once. The indicator light should remain a steady yellow.
- 3.) To take a picture, simply briefly press down the Video/Photo switch button, the indicator light will blink to acknowledge the command.
- 4.) If you wish to take a video, hold down the Video/Photo button until the indicator light blinks. Hold down the button again to stop recording.

5.) If the device should hang for any reason, please use the reset key.

6.) To recover your data, simply remove your battery cover and attach the included USB cable to the device and your computer. Your PC should automatically detect the device and allow you to view and backup your data.
