

Instructions for LC-DVR-640

Video Operation:

Briefly press the power button to turn on the device
The device will begin to shoot video after the yellow light flashes three times
To stop the recording press the button again
The yellow light will come back on signaling the video has stopped
To turn off the device keep pressing the button until the yellow light flashes three times then goes out

Indicator Light Meanings:

The light flashes twice if the power is too low to operate
While charging the device the light will flash
When done with charging the light will go out

Watching the Video:

Use the USB cable to connect the device to the computer. Choose Open Folder to View Files option. Double click the .AVI file and watch!
If the video will not play go to Download.com and download the KMPlayer.

Time Stamp:

Set up a .txt file using Notepad
Name it Systemtime.txt
Use the following format
2009-04-22 11:20:30
The corresponding information is Year/Month/Date/Hr/Min/Sec
Copy the file to the root of the directory. The root directory is after you choose Open Folder to View File
Safely Remove Hardware and restart computer. Time Stamp will then be there
