What makes RC Electronics unique?

All products are tested in the 7,000 sq ft lab and must meet or exceed the original manufacturer's quality requirements, both functionally and cosmetically.

Products ship with a minimum of one year full warranty.

With over 20 years of experience, strong partnerships and global presence, RC Electronics is able to source many end of life, and hard to find products to support customer needs.

RCE specialize in "EOL" End of Life and Hard to find products and also offers a Hardware Refresh program focusing on suitable substitute and compatibility to meet your form fit and function requirements.

RCE offers custom configured workstations and servers per customer requirements and also provides custom Mil Std Rugged, Rack Mount Solutions and Mil Std low smoke Cables.

Integration Services

RC Electronics integrates a majority of the products we ship. Highly experienced technicians working in an ESD free environment assures our customers their complex systems will work out of the box and provide trouble free operation.

Rackmount LCD Keyboards
