

home theater surround sound system

Now there are more ways to enjoy your home theater system. Got an iPod? It also has a dock so you can listen to music from your iPod whenever you want. This home theater system is also wireless ready, so there's no need to hide wires or trip over them. Hear the amazing sound, enjoy more capabilities with the SAMSUNG HT-Z310.

enjoy standard DVDs in HD quality

Now you can enjoy regular DVDs in brilliant high-definition resolution. 1080 up-conversion lets you take full advantage of your HDTV by sending high resolution signals to it. The result is lifelike, vivid visuals and crystal-clear details.

DivX playback

DivX technology provides excellent compression and visual quality. You can now insert DVDs and CDs that have DivX movies downloaded from your computer and watch them on your TV with this SAMSUNG home theater system.

USB host play

You don't need to burn CDs or DVDs to enjoy music, video clips or photos on your home theater system - just plug a portable digital device into the USB port for instant entertainment.

HDMI-CEC

Remote controls cluttering your coffee table? Simplify your home entertainment experience. Control all of your High Definition Multimedia Interface™ (HDMI) connected devices with one-touch control in a single universal remote.

iPod dock

Not in the mood to watch a movie? Now you can enjoy music from your iPod on your home theater system. The HT-Z310 comes with an iPod dock just plug it in and listen to your favorite songs.
