

**AQUOS®****SHARP**  
Winner of a  
2004  
Technology  
and  
Engineering  
Emmy®  
Award

With screen sizes ranging from 26" to 37"<sup>\*1</sup>, the elegant AQUOS® D4U Series easily enhances the decor of any family room, living room or den. With a true 16:9 aspect ratio, HDTV resolution of 1366 x 768, Sharp's Emmy® award-winning LCD technology and breathtaking color purity, it is a next-generation TV to carry you into the high-definition future. The D4U Series utilizes Sharp's proprietary Advanced Super View/Black TFT Panel, which provides high brightness (450 cd/m<sup>2</sup>), 4000:1 Dynamic Contrast Ratio, and wide viewing angles (170° x 170°). All three models are Digital Cable Ready, including a CableCARD™ slot. This means you can "plug and play" with a CableCARD™ from your HDTV-capable Cable-TV system provider, without a separate cable set-top box. The D4U Series features a sleek glossy black cabinet and the included table stand easily removes for wall mounting applications. Other features that distinguish the D4U Series: HDMI and 2 HD component video inputs as well as an enhanced version of Sharp's proprietary Quick Shoot video circuit, which enables fast response time of less than 12ms. Optional Wall Mount Brackets are also available: AN-37AG2 (Tilting) for 32" and 37" models only and AN-LCGWF (Flat) for 26", 32" and 37" models.

**Features:**

**Next-Generation 16:9 LCD Panel** from Sharp's state-of-the-art Kameyama factory.

**Widescreen Advanced Super View LCD Panel** is a Sharp proprietary panel with black TFT low reflection coating.

**True 16:9 (1366 x 768) Resolution** display HDTV program images in 720p and produces a "true" 16:9 aspect ratio.

**Digital Cable Ready with CableCARD™ slot** for receiving HDTV channels with a CableCARD™ from your Cable-TV system provider without the need for a separate set-top box.\*<sup>2</sup>

**High Brightness (450 cd/m<sup>2</sup>)** AQUOS Liquid Crystal Televisions are very bright. You can put them anywhere – even near windows, doors or other light sources – and the picture is still vivid.

**Dynamic Contrast Ratio (4000:1)** provides incredible images whether you're watching dark or bright scenes.

**Wide Viewing Angles (170° x 170°)** Sharp's AQUOS viewing angles are so wide, you can view the TV clearly from anywhere in the room.

**Quick Shoot** The next generation of Sharp's proprietary fast response time video circuit.

## Specifications

\*<sup>1</sup> Actual screen size 37-1/64" measured diagonally (37), 31-1/2" measured diagonally (32), and 25-33/64" measured diagonally (26).

\*<sup>2</sup> Contact your local cable or satellite service provider for available HDTV.

\*<sup>3</sup> The typical period of time after which the lamp's power output will have decreased by about half, given that the AQUOS is used continuously in a 77°F room under standard lighting and brightness conditions.
