LN-S1951W

19" Wide HDTV Monitor with PC/DVD/TV Inputs

Features

HD-grade 1440(H) x 900(V) pixel resolution: High resolution pixel density with built-in image scaler to handle inputs from a variety of digital* and analog audio/video sources.

700:1 dynamic contrast ratio/300 cd/m² Samsung's PVA screen enables brighter whites, deeper blacks and every shade in between. It's higher contrast ratio provides an abundant palette of perfect colors.

Response time: 8 ms response time minimizes blurring of moving video.

150°(H)/135°(V) viewing angle improves viewing angle, contrast, and brightness to provide an even better picture.

Progressive scan eliminates the flicker that you see on traditional, interlaced scanning TVs.

4H digital comb filter constantly analyzes the three dimensions of picture height, picture width, and picture changes over-time, to dramatically reduce edge image artifacts while improving transition detail.

V-Chip System¹ allows blocking of rated TV and movie programs determined by the parent to contain objectionable content.

Multi-lingual on-screen displays in English, Spanish, French, Portuguese.

Screen mode: Wide, 4:3, zoom

Picture mode: Dynamic, standard, movie, custom

Stereo broadcast reception: (MTS/SAP)

On/off timer: Perfect solution to wake up to your favorite morning show, or set a time to turn off the TV so it doesn't stay on all night. Can also be used when you're out.

Sleep timer to turn the TV off in varying time intervals.

On time volume

Auto tuning

Caption

Auto volume leveler keeps audio volume consistent during channel changing.

Auto stereo

Auto power off

Dual purpose stand: Included is a stand that also acts as a wall mount. Just swivel the stand back and use the supplied wall mount kit. Or you can remove the stand and mount the TV using the VESA compatible (100mm x 100mm) holes on the back of the TV (mount not included).
